Designed to Help You to Support Your Child's Maths

6CSUW2MUY7

Dear Parents and Carers,

It gives us great pleasure to be able to introduce our website to you. We know it will help you to support your child with his/her maths at home.

Your school thinks this is really important so they have purchased a subscription to our website for all parents and carers to use free of charge.

Does the maths your child is learning make you scratch your head and think, "This isn't the way I did maths at school"? The maths is the same as you learned, it just looks different.

Our website, i2imaths.co.uk will help you to make the links between your knowledge and the maths your child is learning.

It couldn't be easier to access, simply go to

www.i2imaths.co.uk

then click sign up

This will take you to our registration page.

Enter your school code which can be found in the box at the top of this letter and press continue.

This will allow you to set up your own private and individual log-in then you can use our website at any time, on your phone, your tablet, laptop or desktop.

We look forward to seeing you there.

Pam and Anne
